EDUCATION AND QUALIFICATIONS

State College of Electronics(computer science, programming and economy)
Studied computer science and economics at school. Studied languages such as:
C++
C#
HTML + CSS
PASCAL
Delphi

I am a student who is really passionate about programming.
I used to study to be a programmer, got a higher education, but focused on other professions. Now I am studying computer science again and looking for an internship in IT company.

At the moment I have over 1 year of self-taught programming experience. At the moment I am a student of the "Teach Me Skills" programming school. The ability to solve problems and communicate well is my main strength. I can learn quickly and use this knowledge in my project.
